Chapter 2

We kinda just decided to put out 3 chapters at the same time, just to give you guys a true taste of the story. I'm really enjoying the story, and 3829 is having a good time translating it. Therefore, expect pretty frequent updates. I'll keep trying on the whole getting Difu Daili Ren thing started~ I promise.

Chapter 4

Welcome to the second and most likely last bulk release of Yaoguai Mingdan. Our reason for the second bulk release was because we felt that due to the brevity of the chapters, it'd take a while before the plot got started. So we're marathoning to it! That aside, we have a website now! Link above, and on our Batoto group page. It includes updates, downloads, info about us and the group, how to become a part of EIH and what series we'll be starting in the near future! That being said, enjoy the rest of the marathon!

3829 wanted to do MWF releases for WgMd this week. My wrist hurt now. Anyhow... this just goes to show that you never know who's listening. Could be the illuminati, could be Feng Xi. Also, we're kinda going with 1 day early uploads on site, just because not having contributor on Batoto is annoying, and it won't change 'til after new years. Not like we're mad, but that's how long WpYs was delayed. So kinda a joke.

Chapter 9

Xiao ge intensifies. Not quite as horrible as constant "onii-chan"s though. By the way, a new manhua we're starting is gonna go up today, probably along with this one. So go check out God Among Men. We kept the English title because the summary didn't make sense with the Chinese title... RIP. Also, we here at EIH wouldn't mind another Chinese>English TL if you'd like to join, for Difu Daili Ren. It's a great series, but Zefkiel is a little too busy for semi-frequent updates of it. That being said, we've got a new editor! Yay! If anybody else would like to join EIH as an editor, you'd help releive my work load. Korean>English translators also welcome, as we wouldn't mind branching out a bit on the comic spectrum.

Chapter 10

A comment on Batoto reminded me to announce this. This manhua has been animated! It'll be a bit hard to access on ac.qq unless you mask your IP to appear Chinese. Personally, none of us here really like the animation... but hey, it exists. That aside, this series probably won't get any more bulk releases, considering we're tired of trying to appease all the unpleasent people. Normal releases will resume Monday with Chapter 11, and will follow a Monday weekly release schedule for the forseeable future. The current raws did give us a bit of a boost in drive to continue the speed on this series though... Anyhow, for all of you who do enjoy this series, we hope this week of frequent updates was to your liking.
